**Call to Order:** Chairman Keith Harter called the February 1, 2023, monthly meeting of the Walker Township Board of Supervisors to order at 6:00pm in the Walker Township Municipal Building.

**Pledge of Allegiance:** Chairman Harter led the group in the Pledge of Allegiance.

**Approval of January 3, 2023, Minutes:** Supervisor Heckman made a motion to approve the January minutes as presented; motion second by Supervisor Zimmerman and approved by all three Supervisors.

**Agenda Items:**

- Jake Knisley said his car received damage after a recent snow-storm in December. He was retrieving his mail at the same time a plow came by and snow ended up under his tires and he slid into his mailbox. He wanted to know if the Township would help with the cost of the damage. Supervisor Harter explained the Township policy is that any snow damage done in the Township's Right of Way is not the Township's responsibility. Solicitor Miller confirmed that policy.
- Anne Messner of Centre County Metropolitan Planning Organization (CCMPO) attended the meeting to update the Board on the following current projects they are working on:
  1. The Long-Range Plan is updated every 5 years and due by 2025. Their focus is safety, corridors of concern, drainage, and modes of transportation. Supervisor Harter shared Rt 64 is an area of concern. Ms. Messner said the based on the completed speed study and crash history the only thing that can be offered at this time are warning signs reminding drivers to put their seat belts on. The crash history doesn't warrant further investigation. She realizes it sounds small, but sometimes you have to start small and as time goes on if that doesn't work, they look at something else. Mr. Harter said another area of concern is the upper end of Snyderstown Rd where it sits diagonal to Hublersburg Rd. Zane Sherman, guest, asked if Rt 445 (the Rt before Brush Valley and Nittany Valley) is on the safety corridor plan. He said there seems to be an increase in truck traffic and with the turns and visibility it is a concern. He also is surprised there isn't a weight limit on the road. Ms. Messner said District Two has been watching that Route and has put signage up, but she will bring the concern to them. She said the Long-Rang Plan is in the early stages and will be in touch throughout the process.
  2. Active Transportation Plan. This is a new effort for the CCMPO to go County wide. Their goal is to provide access throughout the County for bicycling and walking facilities.

**Agenda Items (con't):**

The Township feels the Two-Party Agreement between the Township and Developer is sufficient.
- Mr. Franson received from PennDot copies of the map for 2 plots that are to be vacated for Cemetery Lane and given back to the property owners. **GUESTS:**

- Richard Poorman, 404 Hemlock Dr. gave a statement to the Board:

There have been a few things left out of the minutes. To show your transparency, PennDot is not opposed to a closed pipe system and the Supervisors have decided to go with an open system because it is cheaper. After spending \$81,108.00 for our neighbor, they won't spend the additional \$10,000 to \$12,000 to extend the storm pipe to the drain in front of our home so we don't have a 27-inch ditch - 30 feet up our side yard and front yard. We will not maintain the ditch that will be an eye sore to our property when we had a flat yard to begin with. So, at this point I will revoke the Easement.

- Several guests in attendance had comments, concerns, and questions regarding the Conditional Use Applications to install utility ground mounted solar energy systems. Rod Beard, representing the applicants and developer, stated the Developer gave the Board an extension to the February 1<sup>st</sup> Board meeting for their decision. If there are conditions attached to that decision they are expecting to see the conditions at tonight's meeting.

- Supervisor Harter made a motion to deny the Conditional Use Application for Confer 1, LLC to set up a Zoning Ordinance to preserve the agricultural aspects of Walker Township and protect the health and safety of the Community.
